SUMMARY

Full Stack & App Developer with 1+ year of experience building scalable web and mobile applications using modern frameworks and technologies. Proficient in developing user-centric solutions, integrating backend services, and delivering reliable software throughout the development lifecycle. Proven ability to solve complex technical challenges, optimize application performance, and collaborate effectively with in Agile teams.

TECHNICAL SKILLS

Languages : JavaScript, TypeScript, Dart, Java, Python

Backend & Database: Node.js, Express.js, Flask, REST APIs, MongoDB, SQL, PostgreSQL, Redis

Frontend: React.js, Next.js, Flutter, Ant Design, Bootstrap, React Bootstrap, HTML, CSS, Tailwind CSS

Mobile Development: Flutter, Android App Development, Material Design

Development Tools: Visual Studio Code, Android Studio, Postman

Version Control Systems: Git, GitHub, GitLab

Deployment & Publishing: Vercel, Render, Coolify, Google Play Console, App Store Connect

Architecture: System Design, Scalable Architecture, Agile/Scrum

EXPERIENCE

App Developer Trainee · Atmez AI Solutions - Hyderabad,TG

Jan 2026 – Present

- Engineered and maintained 4+ production Flutter apps across HR, education, and productivity domains, serving real users.
- Built 20+ responsive UI screens and integrated 10+ RESTful APIs for real-time data synchronization, enhancing functionality and user engagement.
- Optimized UI performance by 20–30% via efficient state management and widget rendering, cutting crash rate by 15%.

Full Stack Trainee · Zenexis Solutions Pvt Ltd - Bidar, KA

Feb 2025 – Jun 2025

- Collaborated on 2+ full-stack MERN applications with 15+ REST APIs, reducing backend response times by 30% through Mongoose query optimization and scalable database schema redesign.
- Implemented 5+ secure React.js interfaces with file uploads and production-ready APIs, reducing form error rates by 20%.
- Conducted peer code reviews and resolved high-priority bugs, contributing to on-time releases and improved application stability.

PROJECTS

Employee Management System (EMS) | [Live App](#)

Present

- Built a cross-platform Flutter app with 20+ screens for employee management and attendance tracking, reducing manual HR operations through workflow automation.
- Integrated 10+ backend service endpoints to enable seamless data synchronization, streamlining leave and shift management workflows across departments.
- Tech Stack:** Flutter, Dart, REST APIs, Material UI

TaskHive

Jun 2025

- Developed a MERN task management application with 15+ REST API endpoints for user management, load tracking, and event scheduling, achieving 30% faster response times through query optimization.
- Crafted a responsive UI with Ant Design and configured CORS for secure cross-origin access across multiple domains.
- Tech Stack:** MongoDB, Express.js, React.js, Node.js, Ant Design, Multer, Mongoose

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science

Graduated: June 2025

Visvesvaraya Technological University (VTU) · Belagavi, Karnataka
